

## HACIENDA HANDPAINTED TILES “French Provincial Style”

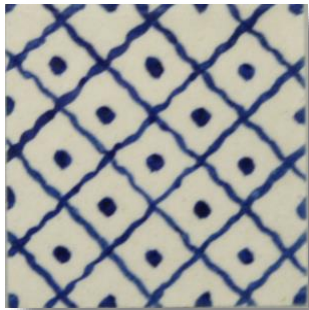

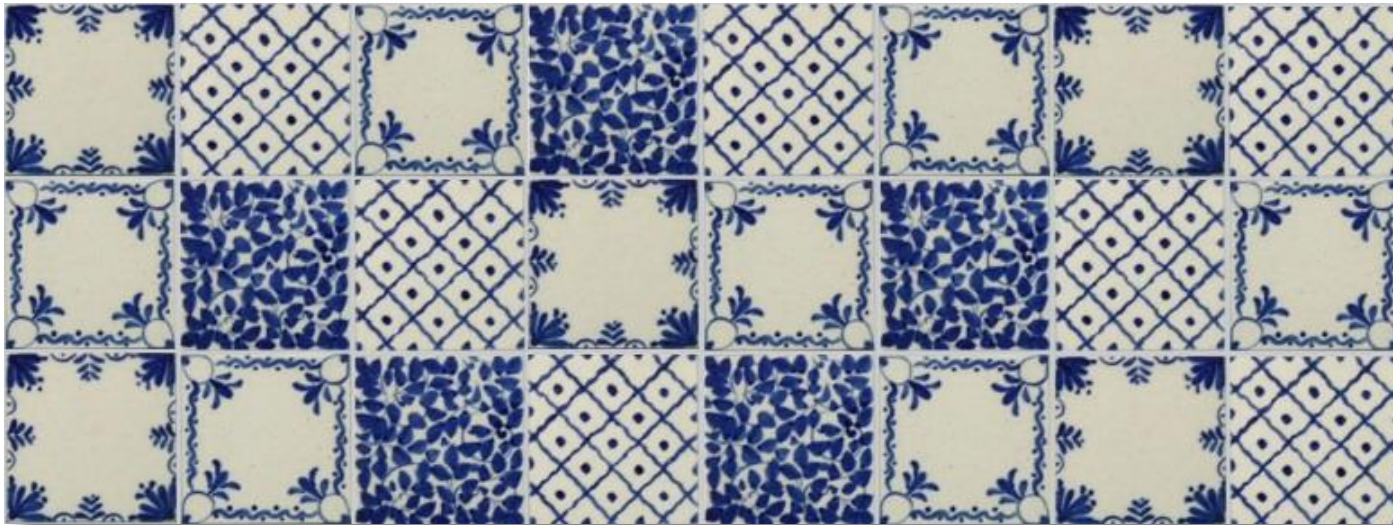

What does a French Country Kitchen and a Mexican Restaurant have in common?

### Hand Painted Tiles

A popular design term French Provincial refers to the interior decor styles of France's provinces in the 17th & 18th centuries. The French Provincial style is decorative and much of the enjoyment and enthusiasm of the look is expressed in the use of pattern. This is highlighted in the French Provincial blue and white decorative wall tiles in Monet's kitchen in Giverny, France.
